QUICK START GUIDE

COMM-CORE
HOSTED IP SOLUTIONS

PARTS LIST

(A) Yealink W52 Cordless Phone
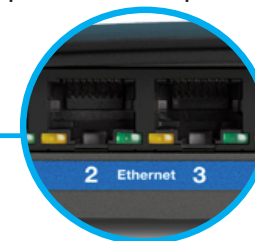

(B) Jabra Link 180

(C) Jabra Biz 1900 Headset

(D) 5ft Cat 5e Ethernet Cable

(E) 2.5mm plug to Mod plug cable

1 Locate your existing home based router* and verify the availability of open Ethernet ports.

***Router shown may not match your installed router as models and style may vary.**

2 Connect Internet Port on Yealink W52 Wireless phone base (A) to any open Ethernet port on your home based router using supplied ethernet cable (D).

**3** Connect Jabra Biz 1900 headset (C) to Jabra Link 180 base (B). Connect Jabra Links 180 base (B) to Yealink W52 cordless phone base (A) using 2.5mm plug to Modular plug cable (E).

4 Complete setup by visiting **http://www.comm-core.com/k12setup** to set a new Voicemail password.

You will need to use your assigned phone extension found on the outside of your Yealink T20 phone box, along with the **default password :** 123456 to complete Voicemail password setup.
